

THRIPS KRANTI

(ORGANIC TERMINATOR/KILLER FOR THRIPS)

THRIPS KRANTI is derived from fermentation of natural material to kill the thrips. **THRIPS KRANTI** kill the thrips by hampering the biochemical digestive system of thrips. **THRIPS KRANTI** is an organic pest controller derived from plants and other natural materials can control other small insects, mites etc. **THRIPS KRANTI** works by dual way i.e to kill the thrips as well as provides micronutrient to plants. **THRIPS KRANTI** is used for any shrubs, plants, trees at any stage of development when thrips attack. Thrips feeding on plants can damage fruit, leaves, and shoots and very noticeably affect plants appearance. Herbaceous ornamentals, and certain vegetable crops, are more susceptible to serious injury from thrips feeding and thrips-vectored viruses, especially when plants are young so, to protect this **THRIPS KRANTI** is best organic solution for them.

Nutrient Composition of Thrips Kranti

PROPERTIES	UNIT	THRIPS KRANTI (Minimum Value)
Appearance	-	Brown Liquid
pH	-	4.5
Nitrogen (N)	ppm	500
Phosphorus (P)	ppm	150
potassium (K)	ppm	550
Magnesium (Mg)	ppm	900
Calcium (Ca)	ppm	500
Total Organic Carbon (OC)	ppm	950
Disclaimer:	Above analysis values may vary based on the critical weather effect	

Thrips Symptoms

- Scraped streaks and blotch appearance on yellowish leaves, turn into boat shaped
- Leaves with brown edges and curl upwards
- Brittle leaves, crinkle and fall-off

Advantage

- Highly target specific. i.e Specifically detect and kill the Thrips
- Provides the micronutrient to plant

DOSAGE:-50ml in 15liters of water (Applied as foliar spray on top and bottom of the leaves)
