

RESKUE

(ORGANIC MECHANICAL KILLER FOR INSECT)

RESKUE is organic mechanical killer, which protects the plant by developing immunity against all pests, fungal diseases. When insect ingests **RESKUE**, it mechanically damages their cuticle and kills it in 48 hours by water loss and dehydration. **RESKUE** is only natural alternative against chemical based insecticide, fungicides,

Nutrient Composition of RESKUE

PROPERTIES	UNIT	RESKUE (Minimum Value)
Appearance	-	Powder
pH	-	6.8
Nitrogen (N)	ppm	5000
Phosphorus (P)	ppm	2500
potassium (K)	ppm	3000
Total Organic Carbon (OC)	ppm	45000
Magnesium (Mg)	ppm	20000
Calcium (Ca)	ppm	5000
Iron (Fe)	ppm	4500
Sulfur (S)	ppm	850
Disclaimer:	Above analysis values may vary based on the critical weather effect	

Advantages

- It covers all leaf with powder coating and protects from all pests and diseases.
- It enhance photosynthesis activity.
- Helps plant to resist soil born fungal diseases like root rot, nematode, termites etc.
- It controls all stages of fungal and bacterial problems.
- It acts against sucking pests like mealy bug, aphids etc.
- Its acts against ball worm, white flies, diamond black, berry borer, mosquito bug etc.

USES: use rescue with cow dung/castor, neem, soya cake, compost or any other fertilizer (mix 3 to 6 kg for 1 bigha)

SPRAY POWDER: Plant to Plant as Per the Requirement,

PUMP SPRAY: 100 to 125 grams in 15 litter pump (next spray every 10 to 12 days until crop recovers)
